-  oliver.spryn@forwardfour.com
-  www.linkedin.com/in/oliverspryn
-  <http://careers.stackoverflow.com/oliverspryn>

- A focused, responsible, and adaptable professional with seasoned project management and prioritization skills as well as an openness to learn more, reflect, rethink, and apply
- A friendly and approachable professional who is able to effectively express himself well in both verbal communication and in writing
- Experience in mathematics, programming, and network management has harbored exceptional troubleshooting, analytical, critical thinking, and problem solving skills, while simultaneously fostering a composed disposition when under pressure
- Expresses an interest for challenging tasks, with a keen, detail-oriented focus to complete them by or before their expected due date

05. 2008 **Freelance Web Development** *Butler, PA, USA*
08. 2012

Project Manager & Application Developer

- Built specialized, data-driven web applications for individuals, organizations, and schools
- Managed day-to-day operations, such as prioritizing project needs, overseeing project development and completion status, time tracking, and time management
- Developed several highly customized, data-centric web-based applications which leveraged a variety of structured programming languages, networking, and server management skills

07. 2010 **Department of Veterans Affairs** *Butler, PA, USA*
08. 2011

IT Volunteer

- Assisted trained specialists in maintaining government networks and computers
- Involved in troubleshooting, inventory control management, and server setup and maintenance within a government run datacenter
- Served as a backup member for the hospital's self-run helpdesk
- Most heavily involved with maintaining, troubleshooting, and replacing computer hardware on the hospital campus

06. 2009 **Freelance Landscape Management** *Butler, PA, USA*
08. 2011

Landscape Maintenance Worker

- Maintained and modified landscape environments to the client's liking
- Leveraged respectable time management skills in order to complete a high volume of tasks within a timely manner
- A detail-oriented work ethic resulted in well-manicured landscapes which left clients well satisfied with their choice of employer
- Responsible for regularly checking and maintaining grounds on an as needed basis
- Prioritized tasks so that sections of more frequently viewed landscaping was cared for before less frequently observed sections
